GET TO KNOW US BETTER

Who we are?

We, at Infra.Market, are India's fastest growing unicorn tech-enabled company and have set out to bring the Construction Technology Revolution to India with the fastest pan-India footprint expansion.

What we offer?

Our highly qualified professional team from various industries ranging from construction to electrical business has achieved many milestones and is re-shaping the world's largest ecosystem through technology.

Based on customers' requirements and success of our branded products, we are pleased to offer our Innovative Fan range under the brand IVAS.

Innovative Fans

IVAS Fans are designed to offer best in class performance and the advantage of latest technology and substantial savings on energy consumption to all our consumers.

WHY IVAS?

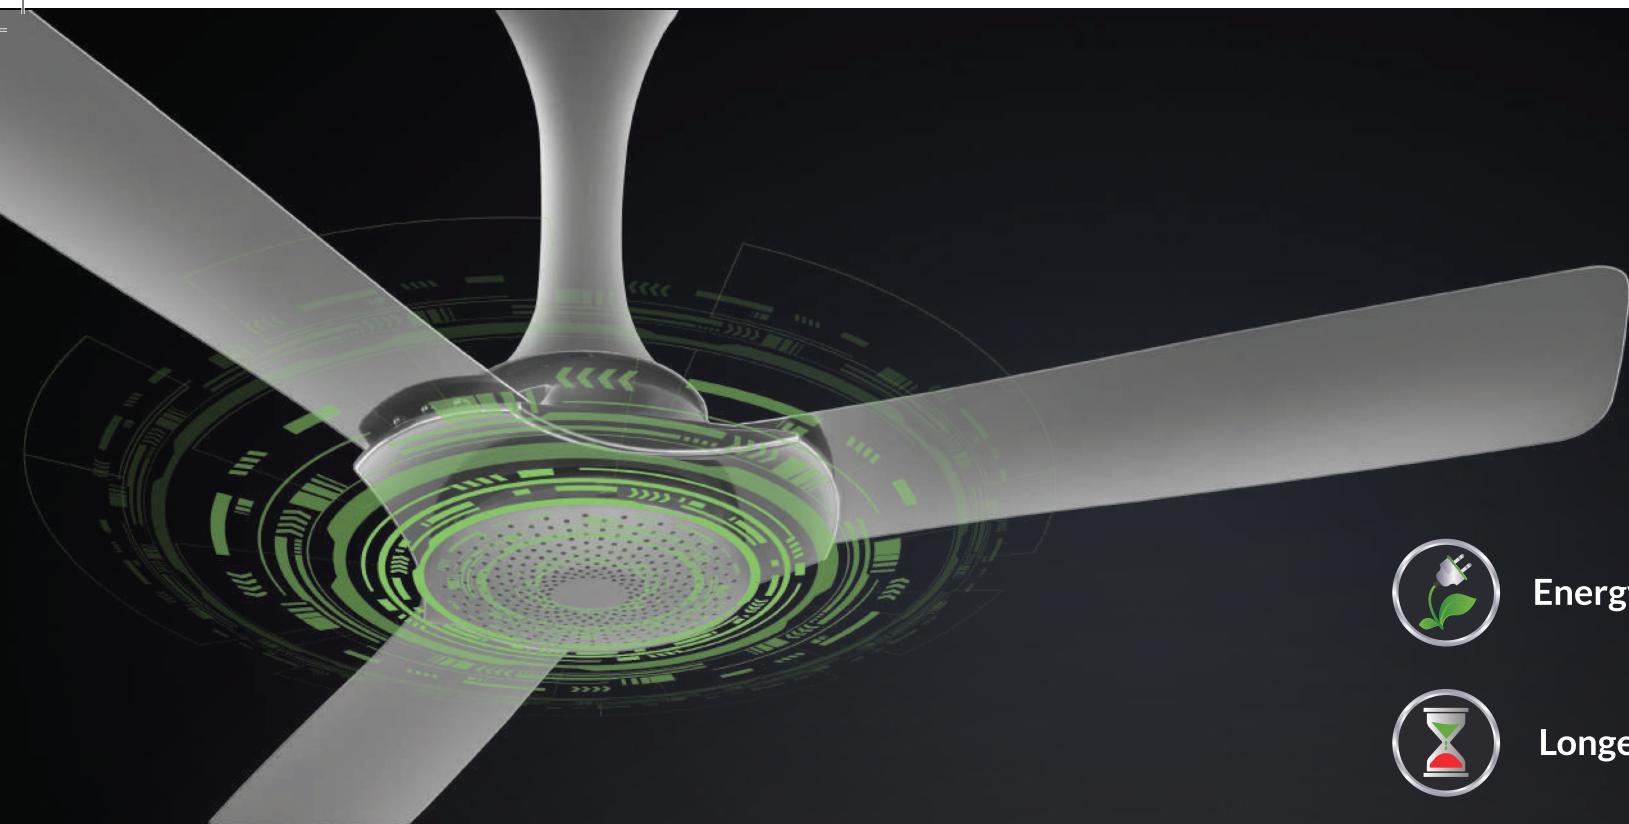

At IVAS, we understand that home is not just a place, but a feeling of comfort and love. We offer a wide range of innovative products, including Electricals, Tiles, Sanitaryware, Bath Fittings, Designer Hardware, Modular Kitchens & Furniture, that can help bring your home to life and preserve the stories and emotions that make it special. With IVAS, you can feel the joy and laughter in every corner of your home, reliving your cherished memories. Each product is carefully crafted to offer a perfect blend of innovative design, unique novelty, great pricing, and super convenience. Let IVAS help you weave a story encompassing all these together.

IVAS

Our products are designed to be technically superior and to provide the desired comfort and ever-lasting experience to our consumers.

BLDC FANS BY IVAS

Your first step towards a better future!

Introducing the latest ceiling fan technology - Brushless Direct Current (BLDC) fans by IVAS. With our BLDC fans, you can experience a longer lifespan, reduced noise, and up to 60% savings on energy consumption, so you can stay cool while saving money. Without compromising on comfort, efficiency, or cost-effectiveness, upgrade to IVAS BLDC fans and enjoy the ultimate cooling experience.

INTRODUCING

PoS

TECHNOLOGY

Photon Orb Sieve Technology

A groundbreaking enhancement to ceiling fans that is set to revolutionize your lighting and airflow experience.

By harnessing the power of light and pattern creation, POS Technology takes ceiling fans to a whole new level.

**THE NAME "POS TECHNOLOGY"
STEMS FROM ITS CORE CONCEPTS.**

PHOTON

Symbolizes the fundamental unit of light.

ORB

Represents the captivating spherical shape that defines this technology.

SIEVE

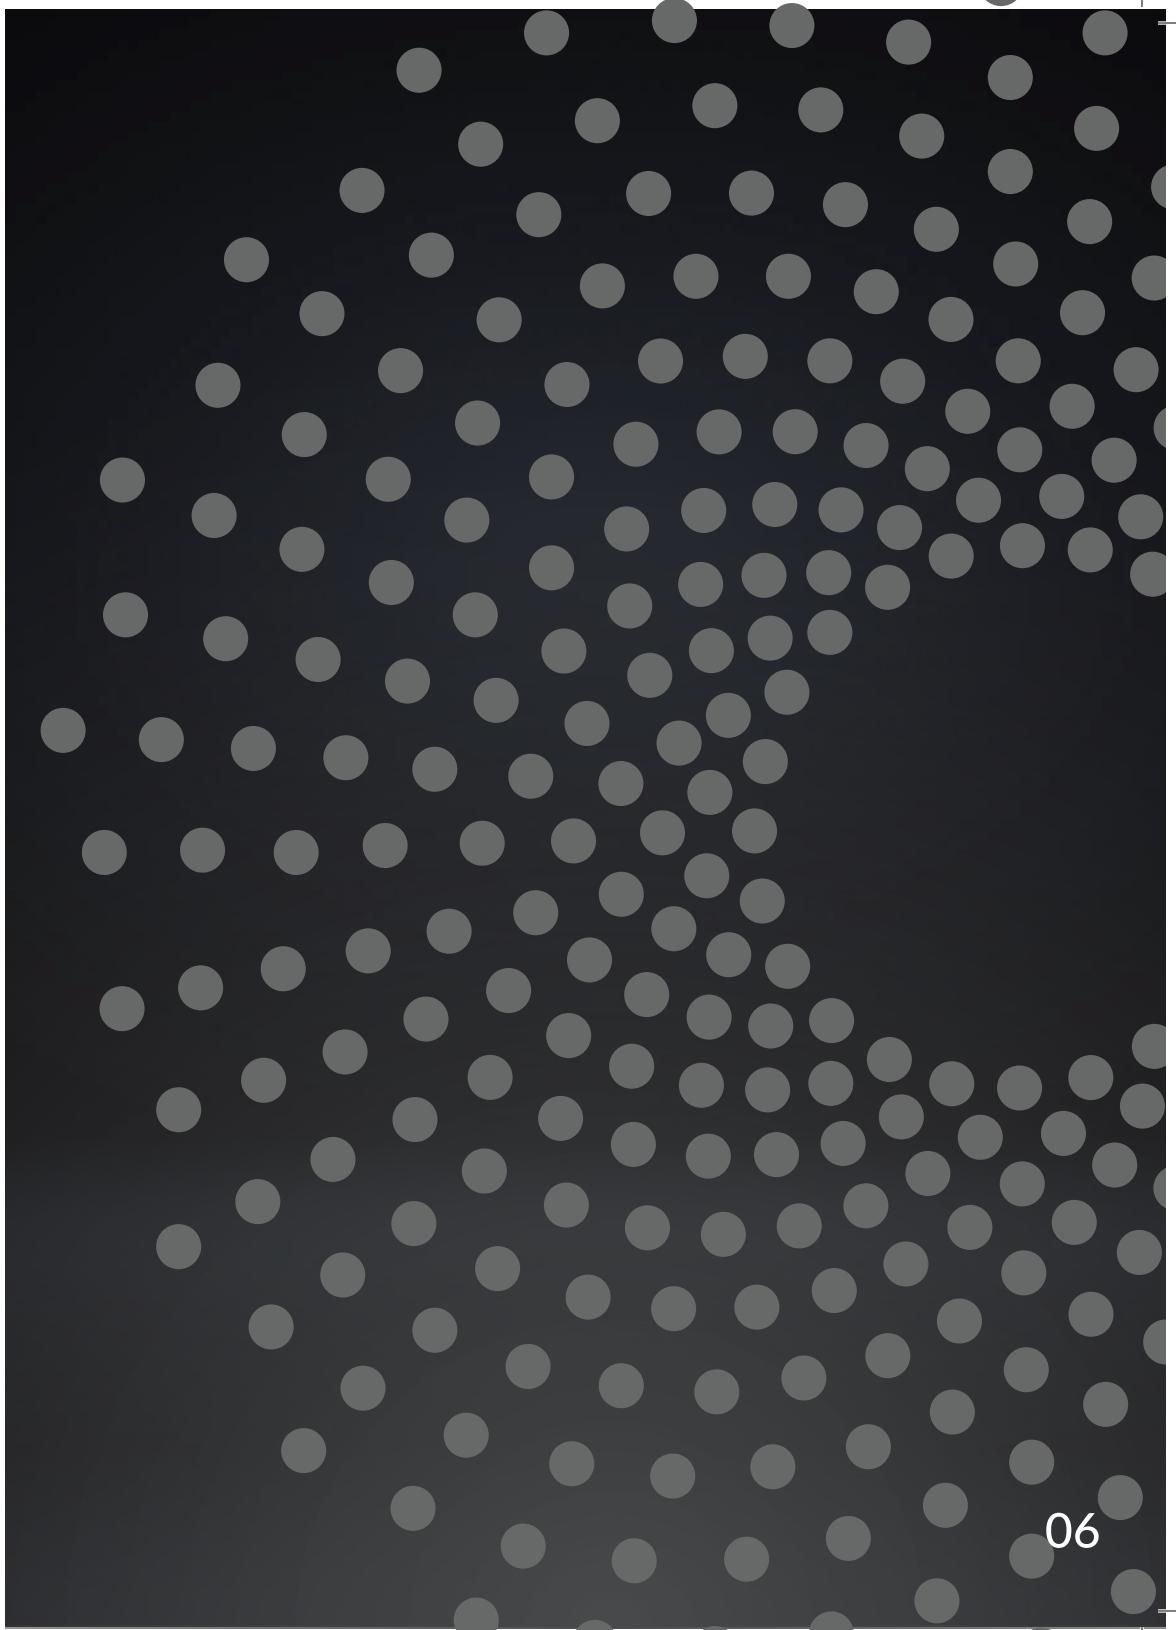

Component acts as a mechanism that skillfully separates finer and coarser particles, creating breathtaking patterns in space.

TECHNOLOGY

The application of scientific knowledge to achieve highly advanced things

Immerse yourself in the beauty of POS Technology and elevate the aesthetics of your living space with this cutting-edge fan technology. Through the generation of an array of mesmerizing light patterns, each fan possesses a unique identity, adding an undeniable touch of elegance and serving as a captivating centerpiece in any room.

Let the magic unfold as your ceiling fan transforms your room into a visual masterpiece that will leave you in awe

Magnus

A perfect blend of design & performance to give you the comfort of cooling and convenience of ergonomics.
